PROJECTS

REAL-TIME COLLABORATION TOOL FOR DEVELOPERS
(Next.js, Node.js, Ballerina, SQL, DevOps)
Developed a platform for real-time code collaboration with contribution tracking, live updates, and multi-language code execution.

REAL TIME TICKET BOOKING SYSTEM
(Spring Boot, React)
Developed a scalable application for event ticket booking. Integrated advanced features to streamline the ticket purchase process and improve user satisfaction.

3D MARKETING WEBSITE
(Next.js,Three.js,Draco,CSS)
Built a 3D marketing website with Next.js, Darco, and 3D models, optimized for performance with eye-catching UI/UX.

FITON GROUP PROJECT
(Unity ,Blender,Next.js)
Worked on Fit-On, a fashion-tech project using 3D modeling, AR, and AI for a virtual dressing room. Developed an interactive web and mobile application integrating LiDAR technology, APIs, and cloud hosting for enhanced user experience.

AI-POWERED TREE HEALTH APP [Ongoing]
(Flutter, python)
Developed an AI-driven application to monitor and analyze tree health using Flutter. Integrated machine learning models to detect diseases and provide actionable insights, promoting sustainable forestry practices.

BUSINESS WEB SITE
(Wordpress,html,CSS,SEO)
Designed and deployed professional business websites using WordPress and custom code. Optimized site performance and implemented SEO strategies to improve search engine rankings, resulting in increased visibility and traffic.
